Hi everyone,

Just some notes on how the remote learning is going to work:

We will be uploading a timetable of learning at the start of each week. This will include 5 days of timetabled lessons to be completed at home. If the activity is internet based (I.E. Purple Mash, Times table Rockstars) there will be a link to this on the timetable.

All others lessons have been uploaded to drop box. There will be one link at the top of the timetable which will bring you to folders for each day with the worksheets and PowerPoint for that day inside. This means that the worksheets will no longer be uploaded to the class story page which will make the lessons easier to access.

Remote Learning marking expectations

Work with an asterix on the timetable will receive a written response and feedback. Other work is still looked at and acknowledged with a symbol. In these instances the teacher is still assessing your child's understanding and using the information to plan future lessons.

As always, any questions please ask.

The Year 3 team.
