

Class Information Sheet

Foundation Stage 2

Summer Term
2024

Class Information Sheet

PE

Your child will have PE every Thursday. They do not need to have a PE kit. Please make sure your child has sensible footwear on this day and any jewellery is removed.

Stay and Read

To promote a love of reading, we encourage as many of you as possible to attend our 'Stay and Read' sessions.

Please join us every **Wednesday**, 8:45am—9:00am.

Please note that we have changed the day!

Reading

We are now further along on our 'Little Wandle' journey and we are so proud of all of the children and the way that they continue to manage their own reading in small groups. This scheme promotes independence and fluency and our children continue to amaze us with their 'Pippa Positive' attitudes towards reading.

Please continue to read together daily and record each read in your child's reading log by writing a brief comment. It is always lovely to hear how the children are getting on at home, reading to you.

Keeping Safe in the Sun

In anticipation for the hot weather we will undoubtedly be experiencing in the next term, please ensure that children bring sun cream and a hat.

Water bottles

Please provide your child with a water bottle. This is to be taken home daily .

Curriculum Overview– Foundation Stage 2 Summer 2024

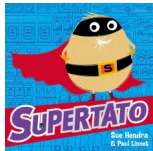

Communication and Language

This term we will identify new vocabulary in the stories we read by our key authors: Nick Sharratt and Giles Andreae. We will learn how some words have more than one meaning.

Literacy

'Supertato' will help to develop our understanding of the structure of stories. We will also use adjectives to describe characters and the things they do.

We will learn about the environment and what we can do to protect wildlife by reading 'Somebody Swallowed Stanley!'

Personal, Social and Emotional Development

Our work around everyday heroes will help us to think about what we can do to help others.

We will also take time to celebrate everything we have achieved in Foundation Stage 2 and look back on some of the memories we have made.

Expressive Arts and Design

By designing and then making our own 'Supertato' characters, we will learn how to follow a plan and to consider which materials are best for the job.

Physical Development

Our PE sessions will focus on speed and agility. We will develop our co-ordination when manipulating equipment in preparation for Sports Day at the end of the term!

Maths

As mathematicians we will continue to build on our knowledge of amounts up to 10—learning one more and one less facts by heart. Now that we have super subitising skills, we will use this knowledge to recall the bonds to 5 and then 10. Our patterns will also become more complex as we will learn how to follow instructions in order to complete a pattern.

Past and Present

As historians we will continue learning about Florence Nightingale and Mary Seacole by learning about the equipment they used and the uniform they wore then and comparing both with nurses of today.

Understanding the World

People, Cultures and Communities

We will learn how to be respectful of other people's beliefs by finding out about special places and where they are in the local area.

The Natural World

By exploring our local area we will learn about the wildlife which inhabit it. We will also learn about the important role some of the smallest creatures play in the survival of our eco system...you really are never too small to make a difference!
